

Hillside Closed For Safety

Good morning and hope all are well after the brief but powerful storm last evening (7/3/26). Unfortunately, a large tree fell onto power lines on Signs Road that connects the pool house, pool deck and snack stand (all without power). FDNY & ConEd responded last evening and thankfully no one was hurt. Work still needs to be done both on our property as well as on Signs Road. Based on current ConEd restoration estimates, we hope to have power this afternoon, but no guarantees! Once power is returned, tree work will ensue followed by pool reopening work & clean up.

With that said, the Board has decided the safest & most prudent action is to delay the opening of the property altogether until further notice. The gates will remain closed to allow work to get done in the safest possible manner. Please DO NOT come to the club this morning for any reason (not even to drop something off or to reserve tables). We will communicate when a definitive time & process for reopening has been established.

We apologize for any inconvenience Mother Nature has caused, but we must err on the side of caution and keep children out of harm's way. Stay tuned for more updates via email, our website, text alert and our social platforms.

The Board of Directors
